

VEHICLE WASH PANELS

“Car & Truck Wash Wall Coverings”

TRUSSCORE™ PVC Interlocking Liner Panel is an ideal choice for the rigorous requirements of car wash bay walls and ceiling coverings. The highly moisture-resistant PVC panel is well suited to wet environments and will not support mildew or mold growth. With a strong resistance to harsh chemicals, TRUSSCORE™ liner panels are impervious to most car and truck wash detergents, soaps, waxes, and foams.

Easy to clean, TRUSSCORE's glossy white, reflective finish will brighten a vehicle wash facilities overall appearance and optimize the effects of the building's interior lighting. Since these carwash wall panels never need to be painted, coated, or otherwise sealed, wash facility maintenance costs are reduced considerably. Cost effective to other construction methods, TRUSSCORE™ is a lightweight car and truck wash panel that can easily be installed either vertically or horizontally.

If you need a vehicle wash panel that is extremely durable and will hold up to years of wash environment abuse, TRUSSCORE™ PVC Wall and Ceiling Panel has your commercial car wash project covered!

Why is TRUSSCORE™ ideal for the Car & Truck Wash Industry?

- **Moisture resistant**, prevents mold and mildew
- **Chemical resistant**, impervious to wash chemicals
- **Bright white finish** reflects interior lighting
- **Impact resistant**, able to withstand carwash abuse
- **Low maintenance**, no painting or refinishing
- **Cost effective** to other construction methods

"Car & Truck Wash Wall Coverings"

TRUSSCORE™ PVC Interlocking Liner Panels

TRUSSCORE™ PVC Interlocking Liner Panels are ideal wherever you need a smooth finish that is easy-to-clean, low maintenance, hygienic and/or abuse resistant. Perfect for wall or ceiling applications, TRUSSCORE'S unique inner web design provides industry-leading spanning capability and rigidity as well as a high strength to weight ratio.

The panel's corrosion resistant surface is durable and highly resistant to scratches, moisture, and most chemicals. TRUSSCORE panels are light in weight, easy to work with, and require no special training or tools to install. The tongue-and-groove interlocking system makes both vertical and horizontal installation quick and easy.

Made from 100% virgin PVC, TRUSSCORE panels are safe to work with using normal construction practices and the waste material is recyclable. Designed for the most demanding applications, TRUSSCORE PVC interlocking liner panels meet and/or exceed modern hygienic construction and statutory building codes.

AVAILABLE TRUSSCORE™ PVC PROFILES

TRUSSCORE™ PVC Profiles are available to make your installation effortless and improve the look of finished interior walls and ceilings.

Chemical Resistance of PVC Products differs significantly from the mechanism of corrosion of metals. Chemical attack on PVC sheet, where it occurs, consists generally of absorption of the chemical by the PVC sheet and its subsequent swelling.

For a complete list of chemicals and corrosive media, please contact us. It is important to note that PVC sheets are generally not recommended for use with acetone, ketones, ethers, and aromatic and chlorinated hydrocarbons.

TRUSSCORE™ PVC Interlocking Liner Panels come with a **Limited Life Time Warranty**. Warrants to the direct purchaser of TRUSSCORE™ PVC Wall and Ceiling Liner that the TRUSSCORE™ will be free from manufacturing defects including peeling, flaking, blistering, and corroding when subject to normal and proper use.
