

## **Hurricane Protection**

### **Lexan\* LTH3T16 Sheet**

Lexan\* LTH3T16 Sheet is a clear fluted polycarbonate sheet used for temporary hurricane protection for windows and doors.

#### **Product Details**

- 16mm, 5/8 inch thickness
- 3 walls construction
- Spans up to 84 x 120 inches
- Typical window covering sizes available, 40x60, 40x102
- Compliant to Florida Building Codes, FL10596

#### **Typical Benefits**

- See Through
- Long term weatherability, 2 side UV protection
- High Impact Resistance
- Easy Installation/simple top/bottom attachment
- Optional hook header for putting shutter up from the ground
- Light weight and reusable (resists moisture) compared to plywood

## Hurricane Protection

### Lexan\* LTH3T16 Sheet

#### Hardware

- Compatible with ELCO Panelmate products
- Washered wingnuts
- Compatible with RAWL Calk-In for optional removable attachments
- Power drill for initial installation of attachments
- Screw driver may be required for putting panels up before and after storms

#### Installation Guidelines

- Measurements should be conducted on the window opening (not the window dimensions)
  - As a guideline, measure the width of window opening, the sheet should be a minimum width of the window opening, but can overlap if desired
  - Measure the height of the window opening, the sheet length must be greater than window height plus 4 inches
- Refer to engineering requirements in FBC listing for detailed installation instructions.
