Protect Your Plants • Grow Your Investment
High-Performance Greenhouse Coverings

AmeriLux International is proud to offer high-performance polycarbonate sheets ideal for the horticultural industry. Our polycarbonate sheets offer the professional grower the ideal combination of maximum light transmission, thermal insulation, impact strength, and energy efficiency.

Perfect for greenhouse structures where high light transmission is required in a light weight sheet. Easy to install and cost-effective, our polycarbonate sheets will live up to your expectations season after season. AmeriLux’s technically advanced products promise to not only protect your plants but also protect your bottom line.

Horticultural uses include:
- Commercial/Hobby Greenhouses
- Retail Garden Centers
- Horticulture Nursery Structures
- Solariums and Conservatories
- Aquaculture Growing
- Horticulture Education Facilities

High Light Transmission
LEXAN™ THERMCLEAR™ 15 Multiwall Sheet offers a high degree of light transmittance while blocking harmful ultra violet rays. (81% PAR 8mm | 74% PAR 16mm). In its structured sheet form, LEXAN™ THERMCLEAR™ 15 also offers excellent thermal insulation properties.

Virtually Unbreakable
LEXAN™ THERMCLEAR™ 15 Sheet maintains its high clarity and retains its mechanical properties. Polycarbonate sheets are 10 times stronger than acrylic and 200 times stronger than glass!

Anti-Drip Coating
Our Dripgard coating ensures that greenhouse condensation is carried away from the roofing so that droplets will not damage your nursery stock. Call for more information and availability.

Warranty
LEXAN™ THERMCLEAR™ 15 Multiwall Sheet carries an Industry Leading 15-YEAR Warranty against yellowing as well as 15-YEARS against breakage caused by hail. As a compliment to SABIC’s warranty, The AmeriLux Extended Warranty increases total coverage to 20-YEARS!

Industry Leading Warranty

With Only 4%

Light Transmission Loss or Less

1% Less LT = 1% Less Growth
Crop Growth is Directly Linked to Light Intensity
